EDITION 2.0

LAPICIDA  
TILE & STONE SPECIALIST

IN-HOUSE CNC STONE PROCESSING

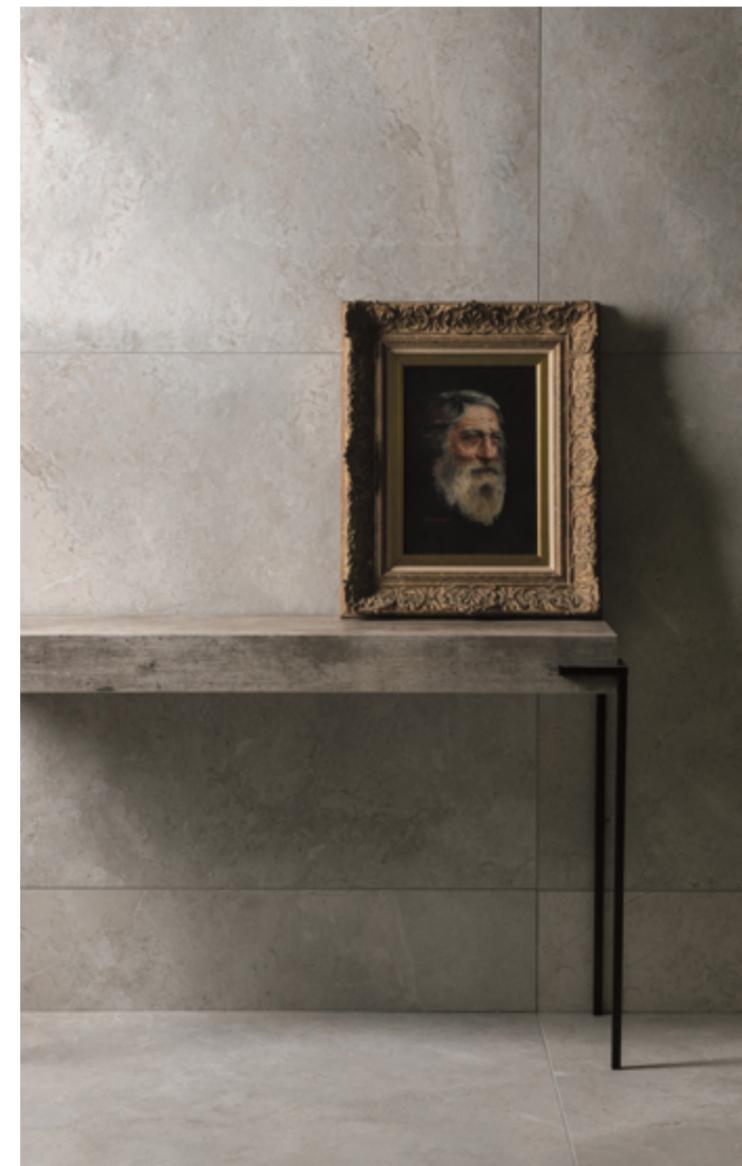

Discover our most beautiful and eye-catching surfaces, from handmade traditional tiles to genuine antique reclaimed floors; veined marbles to clean limestones and new-generation porcelains. Reversed geometric patterned floors sit alongside award-winning contemporary mosaics. Technically perfect porcelains are contrasted by beautifully imperfect handmade ceramics.

Lapicida is a tile and stone specialist and stockist of hard surfaces. We offer a comprehensive service from boxed deliveries to bespoke fabrication tailored to your needs.

STYLE PIETRA GREY PORCELAIN

INTRODUCING A NEW  
GENERATION OF SURFACES

Stone is inherent in everything we do, but we welcome the arrival of new-generation porcelain to our collections.

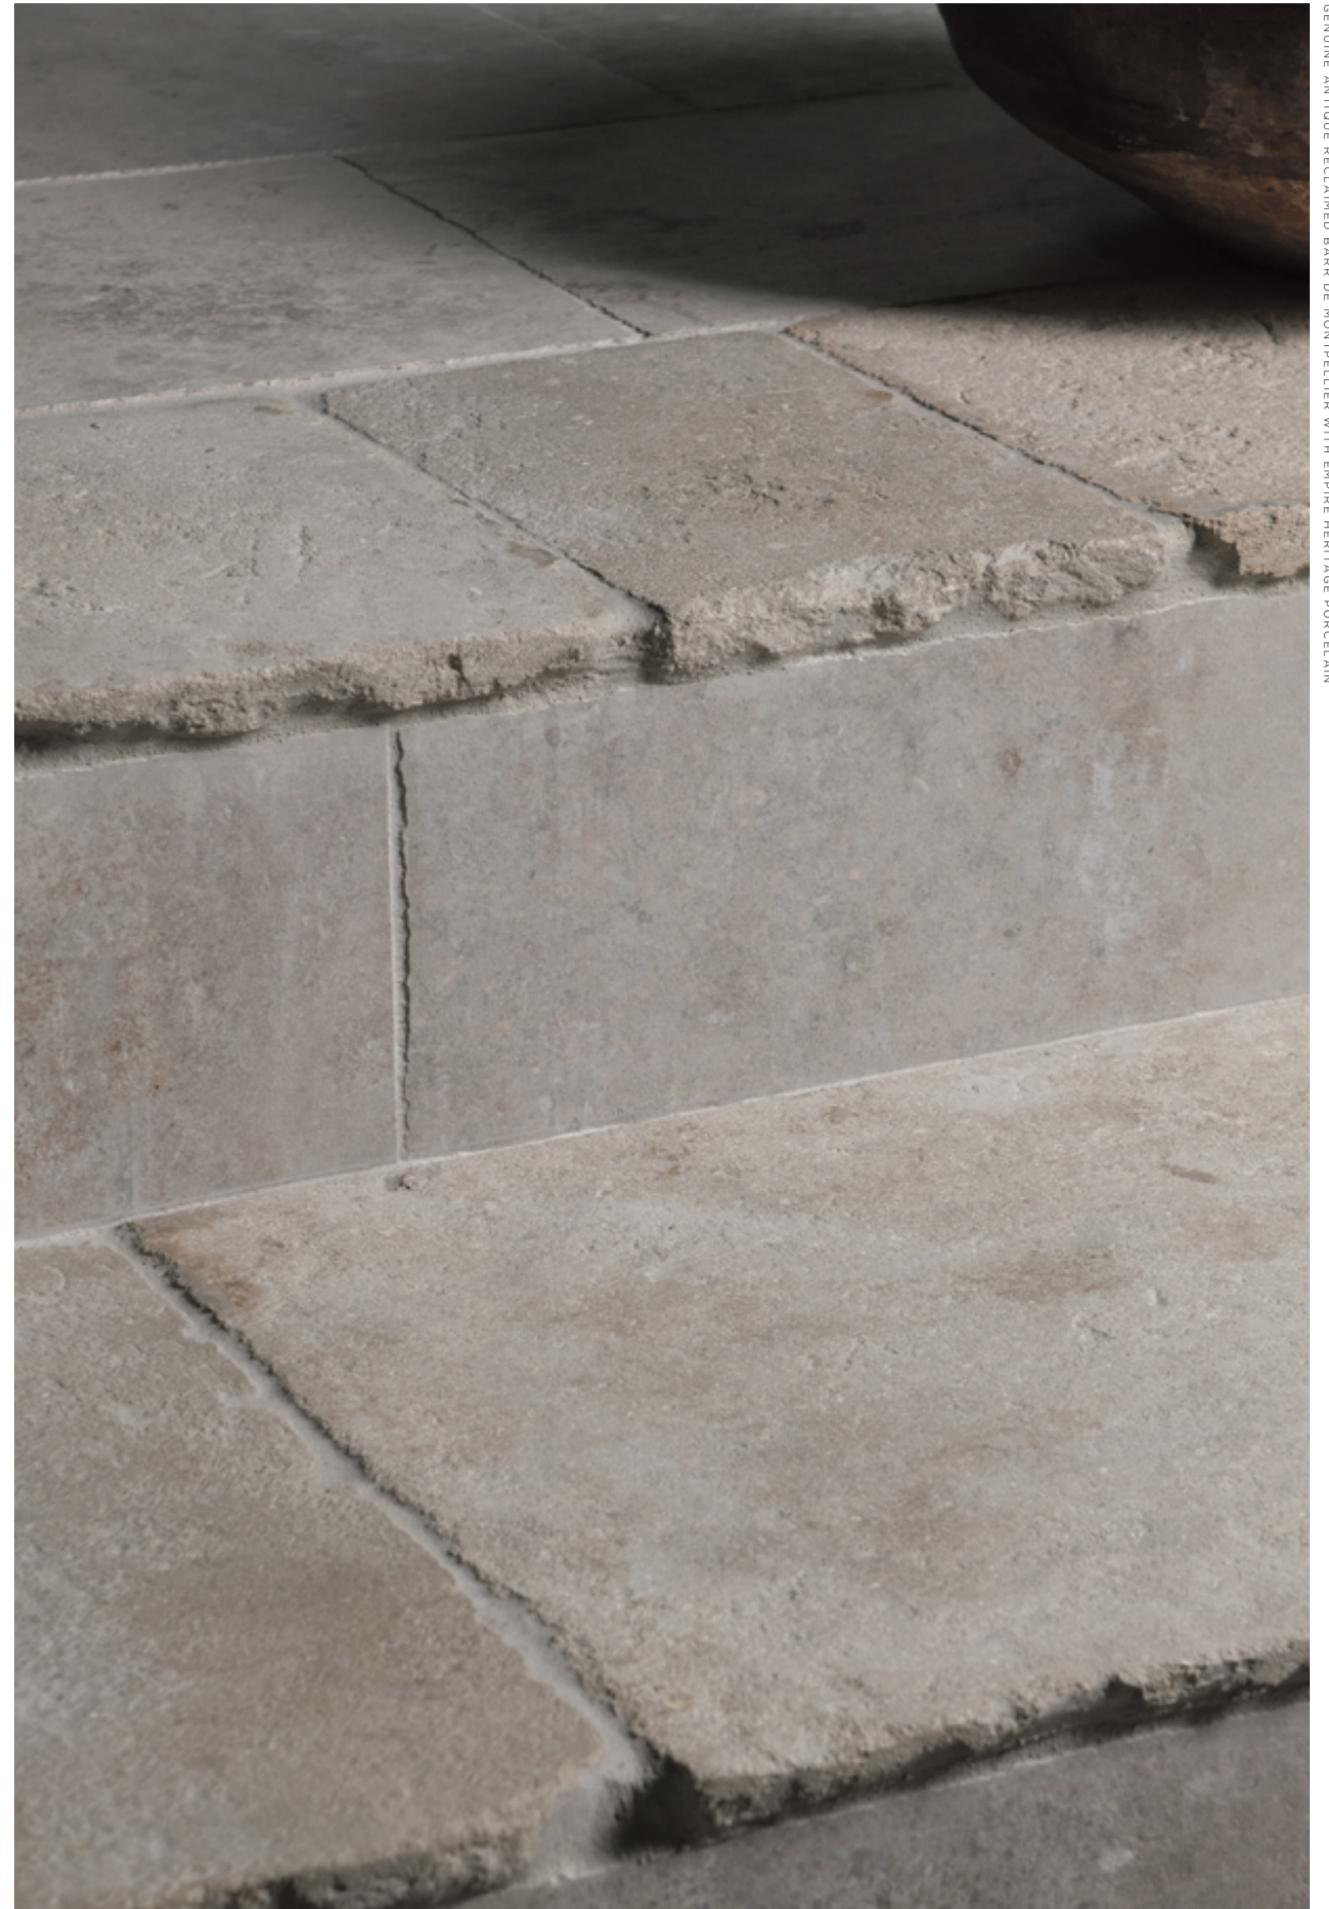

Developments in technology have seen the creation of new materials which challenge nature's offering. Almost indistinguishable from their predecessors, these surfaces are practical, hard-wearing and offer alternative solutions for design projects.

We hold large stocks of a wide range of products that are readily available for immediate despatch, suited to both domestic and commercial markets.

CHIANTI ROVERE PORCELAIN

These beautiful, striking surfaces deceive the eye because they replicate the look of wood, marble and stone quite brilliantly. The natural grain and warm tones of wood and the weathered patina and tumbled edge of limestone are delivered with the inherent practicalities and ease of porcelain.

GENUINE ANTIQUE RECLAIMED BARRÉ DE MONTPELLIER WITH EMPIRE HERITAGE PORCELAIN

ILLUSION BEIGE PORCELAIN

ANTIBACTERIAL FOR LIFE

A new generation of antibacterial porcelain surfaces using technology that eradicates up to 99.9% of bacteria for life. Practical, hygienic and completely weather resistant, these tiles are designed for floors and walls, inside and out, in both residential and commercial settings.

SEMBLANCE STONE & SEMBLANCE CARBON PORCELAIN

ILLUSION DARK PORCELAIN

These products are created using Microban® technology that complies with international safety regulations and has been tested by independent specialist laboratories. It does not whiten or reduce the colour of the porcelain surface it is integrated into and the tiles are installed in the same way as 'normal' tiles.

Despite competition from its modern counterparts, nature's finest holds enduring appeal. With each material carrying its own unique markings and charm, natural stone surfaces offer a broad choice of finishes; the unmatched elegance of bookmatched marble, the distressed edge of limestone or the granular texture of sandstone.

# OLD TOWN

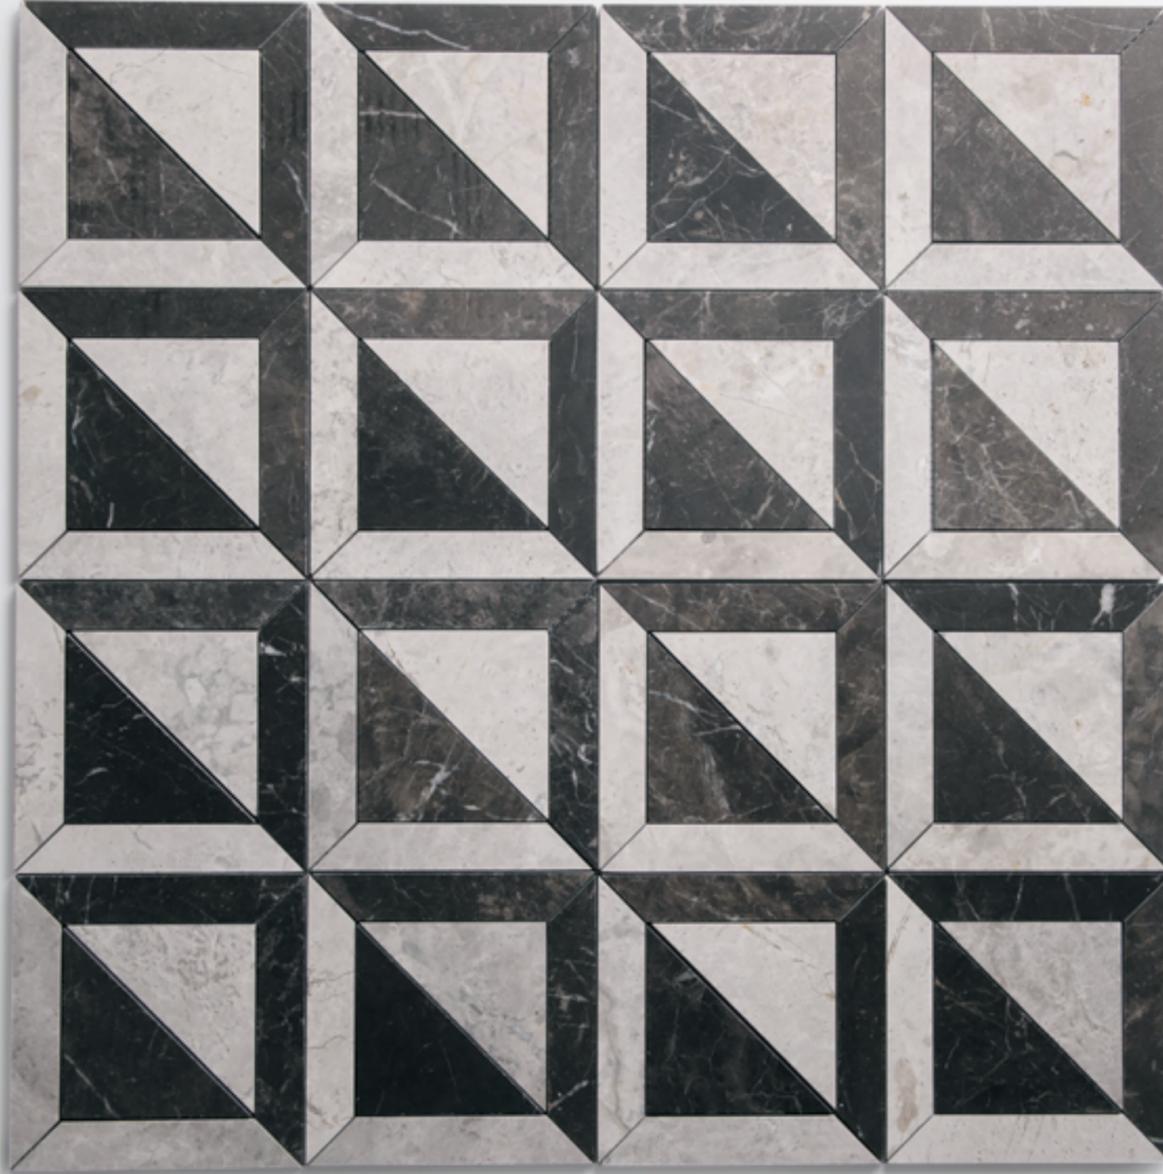

Unbridled pattern and hand-brushed washes, soft blue and white glazed ceramic tiles are synonymous with the Balearics.

These tiles are made the same way today as they have been for centuries. An homage to traditional technique and Mediterranean aesthetic, they embrace the natural texture and imperfections of glazed terracotta.

## AWARD-WINNING COLLECTIONS

Gramercy Park is a full stock collection of natural marble slab, tiles and décors. Pattern has been used for centuries to create intrigue. Decoration which embraces variation in colour, vein and texture. A complement of defined lines and precise arrangements.

Designed to replicate timeworn marble, Lapidica's award-winning Antique Marble porcelain features marks and nuances similar to those found on genuine antique stone. The collection includes Basketweave Bianco Nero Mosaic, winner of the Best Surface Design at the Homes & Gardens Design Awards 2019.

# ANTIQUÉ RECLAIMED

GENUINE ANTIQUE BLONDE BARR

Lapicida's antique reclaimed floor experts lead the field in sourcing the finest stone. Each consignment is carefully cleaned and prepared to fit its specific destination, ensuring our reclaimed floors are the best available.

Experience informs our use of various age-old and modern techniques to create some of the world's most unique and prestigious floors.
