LAPICIDA

A LUXURY GLOBAL BRAND

Lapicida is the leading specialist in luxury surfaces, supplying new and antique natural stone and marble alongside ceramics, new-generation porcelains, quartz and man-made 'sintered' stone.

Based in Yorkshire, we work with architects, interior designers, retailers and private clients across the UK, Europe and the US.

Our Harrogate workshops are renowned for bespoke design and manufacturing; marrying state-of-the-art processes with traditional stonemasonry techniques.

Having invested in stone-recycling technology, Lapicida is taking positive steps towards becoming fully carbon neutral.

WORKING WITH YOU

THE PROFESSIONAL BENEFITS

CARE AND EXPERTISE

Lapicida consultants are highly trained experts in their field. We make it our business to understand your commercial requirements. We help you select the most appropriate surfaces for your project and your budget.

ATTENTION TO DETAIL

Whether you have drawings, dimensions or even just a concept, we will help you to accomplish your vision and transform your designs into reality. Our dry lay and live preview services allow you to envisage your scheme in its entirety.

INSPIRATIONAL PRODUCTS

We select only the highest grade stone and marble, choose the most innovative porcelains, and work with the finest man-made tiles. We keep stock levels high, prices keen and quality products available for customers at all times.

AN INSPIRING AND REWARDING EXPERIENCE

With over thirty years' experience working in the stone and tile sector, we have built up a wealth of knowledge and provide an unparalleled level of service. Architects and designers regard us as an authority. Developers rely on us to deliver on time, every time. Trade partners trust our ability to source innovative products at the right price.

As a Lapicida business customer you will benefit from a range of incentives specific to your industry sector; from new and exclusive product launches, to a professional sampling service and quarry visits. You will receive full support throughout your project, as well as expert advice and guidance.

The case studies featured here show a selection of the types of projects we work on – from luxury property developments and hotels to commercial and retail schemes. Each showcases

the very innovative nature of our work, the attention to detail and the thought behind the materials we specify. The images used to illustrate the projects are all original.

COMMERCIAL PROJECTS

CASE STUDIES

The natural stone and marble featured in this luxury hotel was supplied exclusively by Lapidida.

A CONTEMPORARY CLASSIC

LUXURY HOTEL

BESPOKE FABRICATION

This sophisticated hotel designed with a mono-chromatic theme presents a sensory experience for guests. Lapidida worked closely with the designer to deliver this stunning refurbishment project. Our stone adorns the floors, walls, fireplaces, and even the fabric of the furniture.

Strong geometric floor patterns fashioned from Nero Antica limestone and classic Carrara marble create an enduring impression. Marble vanities, bespoke octagon stone tables, marble-framed mirrors, oversized limestone skirtings and door frames add to the opulence of this hidden gem.

WORKING PRACTICE

OFFICE SPACE
WITH DISTINCTION

MINIMALIST AESTHETIC

An office space, located in one of the world's most dynamic business districts, required a stone floor fit for purpose both aesthetically and architecturally. This striking cross cut Arcobaleno marble was hand-selected from source.

Lapicida invited the customer to visit the quarry so they could see the character and quality of the stone – an important part of the selection process. This hard-wearing marble is perfect for interior floors with heavy footfall.

The soft tones and delicate veining of this beautiful Arcobaleno marble floor add a subtle ambience to this busy office space.

DESIGNED FOR PURPOSE

HIGH PERFORMANCE
FLOORING

TECHNICAL SPECIFICATION

For this luxury car showroom, high quality technical porcelain floor tiles were chosen to withstand the stresses and strains that occur in an industrial, working environment.

The sleek, grey elegance of the porcelain stoneware creates a compelling backdrop to the classic cars on display.

"The porcelain tiles are sustainable and more commercially viable than the previous timber flooring. We no longer have to close the restaurants to refurbish the floors. The finish looks amazing too. We receive lots of compliments from clientele."
Alexa Reid, Managing Director, ATFC Ltd

UNIFORM DESIGN INDIVIDUAL FEEL

NATIONWIDE BARS
AND RESTAURANTS

ADDING VALUE TO BUSINESS

For a brasserie-style venue featuring a kitchen facing onto the restaurant, Lapidia selected a porcelain wood-effect floor, perfect for heavy, high volume footfall and ease of maintenance. Fusilier limestone, machined to look like rivets and coated with a rust-effect paint, added a

harmonizing touch to the bar. In another of the client's venues, impressive San Marino quartermatch marble feature walls complement the tones of the porcelain wood-effect floor tiles. It created a certain ambience, popular with customers and staff alike.

This eclectic 'eco' floor created by Lapidica craftsmen has become a talking point for customers.

ENDURING APPEAL

INDEPENDENT BARS
AND RESTAURANTS

TIMELESS DESIGN

As one of the most competitive sectors in the leisure market, independent bars and restaurants face the challenge of how to stand out in an overcrowded high street. For one quirky outfit, which desired a look reminiscent of an

old Venetian bar, Lapidica created a cost-effective, decorative floor from marble slabs in a spectrum of colours. A beautiful distressed Biblical limestone lines the walls of the wine cellar visible at the back of the restaurant.

LUXURY RESIDENTIAL DEVELOPMENT

OVERSEAS PROJECT

A PRECIOUS COLLECTION

Lapicida worked closely with the developer to meet strict budget and time constraints for this luxury residential development. The project comprises over 4,000 square metres of natural stone and marble, sourced from some of the world's most renowned quarries. The result is a truly breathtaking property, luxuriously finished to the most exacting standards.

Stunning marble and travertine feature walls have been created throughout, sitting alongside limestone flooring and cladding.

A rare bookmatched marble has been used in the bathrooms and Brazilian Copper Dune quartzite and Onyx Miele in the kitchen and bar areas.

The finest 'grade A' natural stone from Lapicida was used in the development of this luxury residence.

Lapicida supplies a diverse range of hard surfaces including natural stone, marble and porcelain.

BESPOKE PERFECTION

BRINGING IT ALL TOGETHER

Our products are chosen for their style, simplicity and quality. Spanning marble, limestone, porcelain and quartz, our collection is timeless with enduring appeal.

Lapicida is expert at taking master craftsmanship honed over decades and combining it with some of the most cutting-edge technologies in

surfaces. We help you to use stone and tiles in a very creative way, adding value to your business and enhancing your company's reputation.

With an ever-expanding range of colours and designs, we help you achieve your desired 'look' at varying price points. Just contact one of our consultants for a quote.

TECHNICAL SUPPORT

EXPERTISE

As an international specialist, Lapidida works with design professionals from all over the world. No two customers are the same. Your visions, challenges and budgets are entirely unique.

It is important to have meaningful dialogue with you at an early stage of your development, so we can impart our knowledge and experience. We have the technical design services to help you realise your ideas.

The team undergoes on-going training and development of new techniques and technologies. We are always well-informed and relish the challenges that interesting and unusual projects bring.

QUALITY AND PASSION

Three generations have shaped Lapidida through their knowledge and passion for stone and tiles. We have developed a world-famous quality checking process. This means we adhere to the very highest standards when selecting products. Every stone and tile in our but also perform.

KNOWLEDGE AND LEARNING

Lapidida is a British Institute of Interior Design (BIID) Approved Partner and a member of the RIBA CPD Providers Network. Our seminars are available for architects, designers and other industry professionals. They provide a unique insight into new materials, innovations and technical considerations.

PTV TESTING

To help customers specify safe and sustainable floor materials for their commercial projects, we offer pendulum test value services. This is the preferred method of slip resistance testing by the Health and Safety Executive.

FURTHER INFORMATION

CONTACT US

WORLDWIDE DELIVERY SERVICES

Careful handling of all our products is important. Our team will contact you directly to arrange delivery. This helps to ensure our delivery vehicles have suitable access on site. We recommend that tiles are stacked and stored vertically (on edge) but not on a hard surface as this can cause additional edge chipping. Most of our orders are packed in either wooden crates or pallets and delivered on a large lorry. Our delivery costs are worked out based on the number of pallets and the postcode zone of the delivery address.

SAMPLES

Lapicida has one of the world's largest tile and stone collections on display in the Harrogate showroom. However, if you are unable to visit, a sampling service is available. Samples 10cm x 10cm can be ordered online at www.lapicida.com. Full tile samples are available on request. Where appropriate, we can arrange to personally deliver a selection of samples and for these to be presented by a member of the team.

This brochure is printed using sustainable paper

Lapicida's exceptional quality control procedures secured this commission to provide natural stone for a high-end luxury residence. From three contenders offering very similar quotes, we were the only company to quality check goods in detail rather than shipping from the quarry to site.
