

The background is a dark, almost black, marbled pattern with intricate, organic veins in shades of gold and light brown. The veins vary in thickness and direction, creating a complex, textured appearance. The overall effect is one of luxury and elegance.

A COLLECTION OF HAND-KNOTTED
CUSTOM-MADE RUGS

"A rug is the cornerstone or foundation on which all the disparate elements and personality within a room are bound together. In such cases the rug should almost be the last thing you notice on entering a room, silently providing a basis for the harmony of a scheme."

**GRANTLEY HALL
NORTH YORKSHIRE**

A magnificent restoration project, which combines a rich heritage with modern luxuries. Dating back to the 17th century, Grantley Hall is a Grade II* listed building located in a beautiful parkland setting near Ripon, North Yorkshire. Lapidida was commissioned to supply natural stone, porcelain and ceramic tiles and to provide fabrication services for a range of opulent marbles and limestones.

“WE HAD TOTAL CONFIDENCE IN LAPICIDA’S ABILITY TO DELIVER THIS WORLD CLASS PROJECT.”

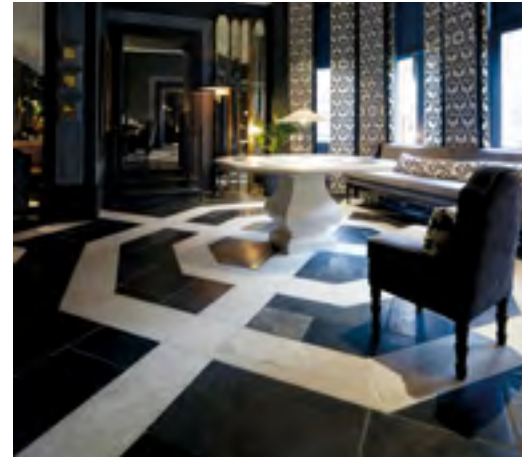

They sourced premium materials to match the classical grandeur of the building as well as providing products to maximise the budget across a range of different requirements.”

Mark Smith
Managing Director, The HACS Group
Main Contractor, Grantley Hall

**RESIDENTIAL DEVELOPMENT
PORTUGAL**

Lapidida worked closely with the developer to meet strict budget and time constraints. The project comprises over 4,000 square metres of natural stone and marble, sourced from some of the world's most renowned quarries. A truly breath-taking property, luxuriously finished to the most exacting standards. Stunning marble and travertine feature walls sit alongside limestone flooring and cladding. Rare bookmatched marble features in the bathrooms, with Brazilian Copper Dune quartzite and Onyx Miele in the kitchen and bar areas.

**THE FRANKLIN LONDON -
STARHOTELS COLLECTION**

Anouska Hempel designed this hotel with the twinkle and the magic of Venice peering through gloriously laid marble and limestone floors based on a historical wellsite near the Rialto in Venice. Working closely with Anouska Hempel Design, Lapidida made the stone floor as well as the stone furniture, fireplaces and mirrors found throughout the hotel. Each of the 35 bedrooms are decorated in tones of grey and flooded with natural light, many overlooking the tranquil green of Egerton Gardens.

**RESIDENTIAL DEVELOPMENT
CARIBBEAN**

Lapidida's exceptional quality control procedures secured the commission to provide natural stone for this private residence in the Caribbean. A beautiful cream marble from Lapidida features throughout, adorning the walls and floors and even the cobbled roads. The custom-made baths and vanities are crafted from the same marble, as are the surrounds of the elegant swimming pool and floating dining pavilion.
